School Nurse

Applications are invited for School Nurse available starting as soon as possible at the Dakar American University of Science & Technology (DAUST).

The newly established Dakar American University of Science & Technology provides instruction and research for undergraduate and graduate students in fields of engineering and technology. Officially approved to open on January 1, 2017 by the Senegalese Ministry of Higher Education and Research, DAUST, located in Somone (about one hour and a half south of Dakar), is a research university of academic excellence.

The goal of DAUST is to prepare and train motivated individuals for careers in engineering and technology. DAUST offers a highly personalized setting that prepares students to become engineering professionals capable of developing technological solutions to Africa's societal needs and challenges.

We are seeking talents for a nurse

The job is for an on call nurse. We are looking for a trained nurse to routinely check up on our student in our campus. A one day weekly visit with the students is required. Any other days, you don't need to be on campus but you should be available on calls in case of any sort of emergencies. If some of the students have a personal physician, keeping in touch with them will ensure a better care for the student in question.

Compensation:

Salary is highly competitive and commensurate with experience and accomplishments.

Application Procedure:

Submit a Cover Letter (Firstname_Lastname_Cover_Letter.pdf) and a CV (Firstname_Lastname_CV.pdf) to info@daust.org.

Review of applications will start immediately.
